PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience building and deploying 15+ live web applications using modern technologies including React, Node.js, Django, and MongoDB. Proficient in Data Structures & Algorithms (Java) with strong skills in both frontend and backend development. Passionate about solving real-world problems through scalable, production-ready software.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Django, REST APIs

Databases: MongoDB, SQL (MySQL / PostgreSQL)

Concepts: Data Structures & Algorithms (DSA), CI/CD Pipelines, RESTful Architecture

Tools & Platforms: Git, GitHub, VS Code, Docker, Render (Deployment)

PROJECTS

AI-Enabled Disaster Prediction System | *Python, Django, NLP, Social Media APIs*

Built an AI system that analyzes real-time social media signals to detect and predict natural disaster events. Integrated NLP-based text classification and alert notification features for early response.

<https://disasterweb.onrender.com>

Video Call Web Application | *Node.js, WebRTC, Socket.io, Express.js*

Developed a peer-to-peer real-time video calling app supporting multi-user rooms, live chat, and mic/camera controls. Deployed with low-latency WebSocket communication.

<https://video-callfrontend-gg2v.onrender.com>

Zerodha Business Web App (Clone) | *React.js, Node.js, MongoDB, Express.js*

Replicated the Zerodha stock trading dashboard with features including portfolio overview, order management UI, market watchlist, and interactive charts.

<https://zerodha-dashboard-ajdh.onrender.com>

Healthcare Management System | *Django, Python, SQL, Bootstrap*

Created a full-featured web app for managing patient records, appointment scheduling, and medical service tracking. Implemented role-based access for admins and doctors.

<https://healthcare-dashboard-u5ii.onrender.com/>

Airbnb Web Application (Clone) | *Node.js, Express.js, MongoDB, EJS*

Built a full-stack Airbnb-inspired rental platform with property listings, user authentication, booking management, and image upload functionality.

<https://airbnbweb-0gah.onrender.com>

Smart Restaurant Management System | *React.js, Node.js, Express.js, PostgreSQL*

Built a full-stack restaurant management platform with role-based dashboards, order processing, billing, inventory, and payment integration.

<https://smart-restaurant-phi.vercel.app>

AllBus SaaS – Bus Booking | *React.js, Node.js, Express.js, PostgreSQL, RozgarPay, Cloudinary*

Built a production-ready SaaS platform with role-based dashboards, online bus booking, fleet

 Coming Soon

Web Scraper Pro | *React.js, Node.js, Puppeteer*

Built a full-stack web scraping application to extract structured data from websites using Puppeteer and Node.js.

<https://webscraper-taupe.vercel.app/>

Object Detection System | *React.js, YOLOv8 Model, Webcam, Node.js*

Built a real-time object detection system using React, FastAPI, and YOLOv8 for detecting objects from webcam and uploaded images.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science:8.91 *(Pursuing)*

Babu Banarasi Das University, Lucknow Expected Graduation: 2027

12th (Intermediate): 65% | 10th (High School): 73%

CERTIFICATIONS & ACHIEVEMENTS

- Data Structures & Algorithms in Java — Coding Blocks (Certificate of Completion)
- Tech Xplore Hackathon — BBD University (Participant & Project Presenter)
- 15+ live production projects deployed on Render and Vercel

STRENGTHS

- Strong analytical and problem-solving skills with focus on clean, scalable code
- Quick learner who adapts to new technologies and frameworks independently
- Collaborative team player with experience in agile development environments
